### **For Immediate Release**

January 11, 2016

### **Fit for Life and Tim Horton's combination outlet open at Georgetown Hospital**

Halton Healthcare is pleased to announce the opening of the Fit for Life and Tim Horton's combination outlet in the main lobby of the Georgetown Hospital (GH) on January 15, 2016.

"This is an innovative concept and the first of its kind in Canada," said Cindy McDonell, Chief Operating Officer, Georgetown Hospital. "There's much anticipation around the opening date, and the new offerings very nicely complement Halton Healthcare's desire to create outstanding patient, visitor and staff experiences," she said.

Through collaboration with staff, physicians, volunteers and the community, the vendors were chosen based on their high-demand products, services and variety of food options and also their ability to provide diverse and healthy offerings. The location in the lobby will provide convenient proximity for staff, patients and visitors.

Fit for Life offers a variety of affordable, healthy and nutritional choices while Tim Horton's offerings will complement the customer experience by providing their branded beverages.
