## Halton Healthcare Services Awarded NICHE “Exemplar” Status

**(Halton Hills/Milton/Oakville, ON) November 13, 2014 -** Halton Healthcare Services (HHS) has been awarded the "Exemplar" status for its NICHE (Nurses Improving Care for Healthsystem Elders) program for the second consecutive year. NICHE is an international program designed to help hospitals improve the care of older adults. The "Exemplar" status recognizes HHS' ongoing, high-level commitment to providing exceptional geriatric care throughout its three community hospitals. Halton Healthcare Services is one of only two healthcare facilities with this Exemplar status in Canada.

“We were the first community hospital in Ontario to be designated as a NICHE hospital in 2009,” says Kim Kohlberger, HHS Program Director, Rehabilitation & Geriatrics. “Since then, we established our Safer Elder Care Steering Committee and with the leadership of our HHS NICHE Program Coordinator, Colleen Silver, Nurse Practitioner, successfully developed a strong network of Elder Care Mentors and Champions among our healthcare providers.”

Halton Healthcare Services has also implemented a wide range of clinical assessment tools, management protocols, and best practices into its culture of care to successfully address inter-related geriatric issues such as delirium, safe mobility, and falls. The NICHE Program has resulted in better outcomes and greater satisfaction for HHS patients and their families.

“Exemplar status, the highest of four possible program levels, recognizes your facility’s ongoing, high-level dedication to geriatric care,” stated Barbara Bricoli, NICHE Executive Director and Linda Bub, NICHE Director, Education and Program Development, in their congratulatory letter. “The Exemplar level was achieved because your facility demonstrates that its goals align with the dimensions we use to gauge excellence specifically in the areas of organizational structure, leadership and geriatric competence. The NICHE designation and the “Exemplar” status signal your organization’s resolve to provide outstanding patient-centred care for older adults.”

“We were honoured to receive the Exemplar designation last year and we are absolutely thrilled to receive it again this year,” said Sylvia Rodgers, HHS Interim Senior Vice President Clinical Programs, Chief Nursing Officer & Professional Practice Leader. “This designation recognizes our ongoing commitment to achieving excellence with our Safer Elder Care Initiative by establishing a culture of care that is sensitive to the needs of this population. It reflects the dedication of our Elder Care Mentors, Champions and frontline healthcare providers.”

## Halton Healthcare Services Achieves NICHE Exemplar Status

### About NICHE

NICHE (Nurses Improving Care for Healthsystem Elders) is an international program designed to help hospitals improve the care of older adults. Its mission is to provide principles and tools to help healthcare facilities achieve exemplary patient-centred care for older adults. Based at New York University College of Nursing, NICHE consists of over 500 hospitals and healthcare facilities throughout North America. For more information, visit [www.nicheprogram.org](http://www.nicheprogram.org).

### About HHS' Safer Elder Care Program

Safer Elder Care is an award winning initiative that recognizes the unique needs of older adults and provides a culture of care that is sensitive to the needs of this population. Started in 2009 at HHS, it addresses common inter-related geriatric issues such as delirium prevention and management, safe mobility, least restraint, falls prevention, skin care and the prevention of catheter associated urinary tract infections. Safer Elder Care was designated as a Leading Practice by Accreditation Canada in 2010.

### About Halton Healthcare Services

Halton Healthcare Services (HHS) is a progressive, multi-site healthcare organization comprised of three community hospitals - Georgetown Hospital (GH), Milton District Hospital (MDH) and Oakville-Trafalgar Memorial Hospital (OTMH). Together these hospitals provide healthcare services to more than 300,000 residents in the communities of Oakville, Milton and Halton Hills. With an outstanding reputation as a workplace of choice and a good community partner, HHS hospitals have been recognized for their best practices in a number of patient safety and patient care initiatives. In 2013, HHS was Accredited with Exemplary Standing - the highest possible status granted by Accreditation Canada.
