Repairs and Upgrades Coming to Halton Hospitals this Year

Province Investing in Renewed Facilities to Deliver High-Quality Health Care

News

Thursday, July 13, 2017

Ontario is continuing to strengthen and support hospitals in Halton with repairs and upgrades to two hospitals this year, to provide patients with high-quality care in a safe and healthy environment.

Today, Indira Naidoo-Harris, MPP for Halton, was in Milton to make the announcement. This year, Milton District Hospital and Georgetown Hospital will receive a combined \$666,194 to revitalize their facilities.

Funding from the province allows hospitals to make critical improvements to their facilities, including upgrades or replacements to roofs, windows, heating and air conditioning systems, fire alarms and back-up generators.

The 2017 balanced Budget includes a new \$7-billion booster shot to health care, building on the commitment made in the 2016 Budget. This investment will improve access to care, expand mental health and addiction services, and enhance the experience and recovery of patients.

Ontario is increasing access to care, reducing wait times and improving the patient experience through its [Patients First Action Plan for Health Care](#) and OHIP+: Children and Youth Pharmacare – protecting health care today and into the future.

QUOTES

“These repairs and upgrades are crucial to ensuring all patients get the help they need now and in the future. By upgrading our hospitals’ infrastructure, we are helping Ontarians get the best health care close to home.”

— Dr. Eric Hoskins, Minister of Health and Long-Term Care

“Georgetown and Milton are rapidly expanding communities with growing health care demands. This revitalization funding ensures that local families get access to excellent health care services in high-quality facilities. These hospital improvements will benefit our communities now and long into the future.”

— Indira Naidoo-Harris, MPP for Halton

INDIRA NAIDOO-HARRIS, MPP

Halton

“On behalf of Ontario hospitals, I'd like to thank the Ontario government for recognizing the need for this vital investment. Given the continued capacity pressure facing hospitals as a result of a growing and aging population, ongoing investment in equipment upgrades and building repairs is needed to extend the life of all hospital facilities to maintain access to frontline services.”

— Anthony Dale, President and CEO, Ontario Hospital Association

“Today's funding provides a critical infusion of dollars to support the maintenance of infrastructure at Halton Healthcare. Importantly, it enables continued access to high quality care in an environment that is conducive to patient comfort, healing and recovery.”

— Bill MacLeod, CEO, Mississauga Halton LHIN

“Today's announcement recognizes the importance of continued investment in existing hospital infrastructure. Upgrading and maintaining our facilities ensures that we are able to provide a safe and healthy environment for patients and staff. We are extremely grateful for the province's support and helping us fulfill our vision of providing exemplary patient experiences, always.”

— Denise Hardenne, President & CEO, Halton Healthcare

QUICK FACTS

- The province is investing \$175 million in repairs and upgrades to hospitals this year through the Health Infrastructure Renewal Fund (HIRF).
- HIRF was established in 1999 to assist hospitals in renewing their facilities.
- As part of the 2017 Budget, Ontario is also spending an additional \$9 billion to support the construction of new hospital projects across the province. This brings Ontario's total planned investment in hospital infrastructure to more than \$20 billion over the next 10 years.
- The government's investment of more than \$190 billion over the 13-year period starting in 2014–15 is the largest infrastructure investment in the province's history. It is helping to build new child care spaces, schools, hospitals, public transit, highways and roads.
