

Halton Healthcare is a leading healthcare organization serving people with compassionate, quality and integrated community hospital care. Halton Healthcare is Accredited with Exemplary Standing by Accreditation Canada.

HOSPITALISTS – Oakville

Halton Healthcare is seeking Hospitalists to join the Department of Hospital Medicine at Oakville Trafalgar Memorial Hospital. Hospitalists care for unaffiliated patients in acute medical, surgical, mental health, rehabilitation and complex continuing care inpatient units. Working with a collegial team of Hospitalists, you will be part of a strong, collaborative interdisciplinary team, supported by approachable specialists with access to advanced diagnostic and therapeutic services. Part-time, full-time, weekend-only, summer locum, maternity locum, and nocturnist opportunities are available which offer flexible scheduling. Participation in hospital quality initiatives and committees is expected. As a teaching site for McMaster University, the Hospitalist team provides teaching to family medicine residents, for which a faculty appointment can be arranged.

Responsibilities:

- Manage the care of assigned inpatients including recognition, problem identification, diagnosis, coordination of investigative and therapeutic interventions, goals of care identification, monitoring changes in health status, and determining medical stability
- Provide medical care consistent with legal and regulatory requirements, evidence-based best practices, patients' diagnoses, condition, prognosis and goals of care
- Support and demonstrate the values of Halton Healthcare: Compassion, Accountability, Respect
- Address patient care needs, visits, phone calls, and documentation in an appropriate and timely manner
- Identify circumstances in which palliative and/or end-of-life care may benefit the patient and family members
- Collaborate effectively with members of the interdisciplinary team in providing care based on understanding and valuing the general roles, responsibilities, and levels of knowledge and training for those of various disciplines
- Exhibit professional, respectful, and culturally sensitive behavior for working with patients, their families, and members of the interdisciplinary team
- Support transitions of care between hospital medicine providers and upon discharge or transfer of inpatients into the community or within the hospital
- Provide care that uses hospital and community resources effectively and efficiently

- Attend departmental and hospital quality meetings
- Develop a continuous professional development plan including an annual course focused on acute hospital medicine using relevant opportunities from professional organizations
- Maintain licensing requirements and in professional college certification programs
- Participate in on-call and scheduled clinical responsibilities

Qualifications:

- Licensed by the College of Physicians and Surgeons of Ontario or eligible for licensure
- Demonstrates clear interest and recent experience in acute hospital care
- Additional competency training or experience in Hospital Medicine preferred
- Knowledgeable in the Public Hospitals Act, 1990 and the legal and regulatory provincial requirements regarding consent, capacity, and substitute decision making
- Demonstrates ability to be adaptable, build trust, provide coaching and mentorship, facilitate change and quality improvement
- Demonstrates skills to effectively interact with staff, patients, and families by using appropriate strategies to address sensory, language, health literacy, cognitive, and other limitations
- Demonstrates ability to improve personal practice and patient outcomes by evaluating patient adverse events and outcomes
- Demonstrates skills to operate electronic medical records and use electronic mail (e-mail) effectively
- Demonstrates interest in participating in hospital quality improvement initiatives

Qualified candidates are invited to submit a covering letter with curriculum vitae, description of additional training, and previous work experience to the attention of **Dr. Stephen Chin, Chief of Hospital Medicine, Oakville Trafalgar Memorial Hospital via email to HospitalMedicine@haltonhealthcare.com by April 1, 2022 (or until positions filled)**. Anticipated start date is no later than July 2022.

We thank all applicants for their submissions; however, only qualified candidates will be contacted to attend a pre-application interview. All appointments are subject to an impact analysis and Board approval.
